

Amendments to the Claims:

The following list of claims will replace all prior versions and listings of claims in the application.

Listing of Claims

Claim 1 (currently amended): A fan housing assembly comprising:

a mounting base; and

a bushing coupled to the mounting base, wherein the bushing comprises a sleeve and a bottom portion, and the bushing is coupled to the mounting base by attaching the bottom portion to the mounting base;

wherein the mounting base and the bushing are separately formed with predetermined materials before being assembled.

Claim 2 (original): The fan housing assembly according to claim 1, wherein the mounting base is made of ordinary plastics, and the bushing is made of engineering plastics.

Claim 3 (original): The fan housing assembly according to claim 2, wherein the ordinary plastics is polystyrene plastics.

Claim 4 (original): The fan housing assembly according to claim 2, wherein the engineering plastics is polyester plastics.

Claim 5 (original): The fan housing assembly according to claim

1, wherein the bushing is made of primary material of plastics, and the mounting base is made of secondary material of plastics.

Claim 6 (original): The fan housing assembly according to claim 1, wherein the bushing is made of metal.

Claim 7 (original): The fan housing assembly according to claim 1, wherein the mounting base is made of metal.

Claim 8 (canceled)

Claim 9 (original): The fan housing assembly according to claim 1, wherein the bushing is coupled to the mounting base by ultrasonic welding.

Claim 10 (original): The fan housing assembly according to claim 1, wherein the bushing is coupled to the mounting base by engagement.

Claim 11 (original): The fan housing assembly according to claim 1, wherein the bushing is screwed to the mounting base.

Claim 12 (original): The fan housing assembly according to claim 1, wherein the bushing is coupled to the mounting base by adhesion.

Claim 13 (original): The fan housing assembly according to claim

1, wherein the mounting base is a fan frame.

Claim 14 (original): The fan housing assembly according to claim 13, wherein the fan frame comprises a flange, and a through hole is formed in a central location of the flange.

Claim 15 (original): The fan housing assembly according to claim 1, wherein the mounting base is a frame of a device that incorporates a fan assembly therein.

Claim 16 (original): The fan housing assembly according to claim 15, wherein the device that incorporates the fan assembly therein is a power supply, a server or a computer.

Claim 17 (original): The fan housing assembly according to claim 1, wherein the mounting base is a sidewall of a device housing.

Claim 18 (original): The fan housing assembly according to claim 1, wherein the mounting base is a fan guard.

Claim 19 (currently amended): The fan housing assembly according to claim 1, wherein the mounting base includes a through hole and ~~the bushing has a sleeve and a bottom portion, and the bushing is coupled to the mounting base by the bottom portion of the~~ bushing is attached attaching to the mounting base after the sleeve passes through the through hole.
